Extended Forecast – Widespread high pressure is expected across Florida during the extended forecast and will give way to plentiful sunshine throughout the week. Overnight lows will be in the 40s tomorrow morning gradually climbing into the 50s by late week into the weekend. Daytime highs in the 60s tomorrow will warm into the 70s for the rest of the period. Overall winds are expected to be on the lighter side with gusts to around 15 mph expected on most afternoons.

Forecast prepared by DTN meteorologist Marcus Hustedde.
