

## WEATHER FORECAST

Issued: 8am Tuesday, December 9, 2025

Day	9am	11am	1pm	3pm	5pm	7pm
Sky						
Weather	Cloudy w/ Light Shower or Sprinkles	Cloudy w/ Light Shower or Sprinkles	Cloudy w/ Light Shower or Sprinkles	Cloudy w/ a Periodic Shower	Cloudy w/ a Periodic Shower	Cloudy w/ a Periodic Shower
Rain Probability	20%	20%	25%	30%	40%	30%
Lightning Probability	0%	0%	0%	0%	0%	0%
Temp (F)	64	66	68	69	68	66
Winds (mph)	NE 8-14 G22	NE 8-14 G20	NE 8-12 G20	NE 8-12 G18	NE 8-12 G16	NE 6-12

**Today** – Cool and dreary conditions are in place across south Florida with overcast skies likely persisting much of the day. Additionally, periods of sprinkles or light showers could fall from these clouds, especially during the afternoon. Northeast winds can be expected throughout the day with gusts around 20 mph possible. Forecast rainfall: Less than 0.05"

**Sunrise: 7:03am / Sunset: 5:35pm**

Day	Wed	Thu	Fri	Sat	Sun
Sky					
Weather	Decreasing Cloud Cover	Mostly Sunny	Mostly Sunny	Mostly Cloudy	Mostly Cloudy w/ Showers Poss.
Rain Probability	0%	0%	0%	15%	30%
Rain Amount (in)	0.00"	0.00"	0.00"	0.00"	< 0.25"
Temp (min/max)	60/74	55/75	53/78	60/80	63/79
Winds (mph)	NE → W/NW 8-12 G18	NE → NW 8-12 G16	NE → Variable 6-12 G15	NE → Variable 6-12 G15	NE to N 8-12 G16

**Extended forecast** – A comfortable stretch of weather is expected across south Florida with mild temperatures and low humidity. The forecast also favors dry conditions much of the week, however a stalled frontal boundary south of the Florida Key will be monitored. If this front gets dislodged northward, the threat for rain would increase. For now, a 15-30% rain chance will be included in the weekend forecast to cover this potential threat, with Sunday the more likely day to see rainfall. Winds should favor a northeast component each morning, eventually turning westerly as the sea breeze develops.

Forecast prepared by meteorologist Kyle Koval.
