Temp (min/max)	Min: 57		57/74		52/78	60/80	63/78
Winds (mph)	NW → N 4-8		N → NW 8-12 G16		NE → Variable 6-12 G15	NE → Variable 6-12 G15	NE to N 8-12 G16

Extended forecast – No weather concerns through Friday with dry conditions expected and mild daytime temperatures. During the weekend, attention will turn to the stalled out frontal boundary near the Florida Keys. There is potential this front is dislodged northward bringing the threat for showers to the Naples areas. Given the low confidence, rain chances will be kept low (15-30%) until a stronger signal develops. Winds should favor a northeast component each morning, eventually turning westerly or becoming variable as the sea breeze develops.
