Extended Forecast – A slight chance of showers will develop overnight into tomorrow as a weak disturbance moves across the region. The greatest chances will be before 2pm. Mixed skies are then expected through Friday. A stray shower or two can't be completely ruled out. Mostly sunny skies are expected on Saturday before partly cloudy skies develop by the end of the weekend. Overnight lows will be in the lower to mid-70s with daytime highs in the mid to upper 80s. Winds will be the strongest during the afternoon hours with gusts generally between 15-22 mph through the period.
