**Extended Forecast** – Once again a shower or two from overnight into the morning on Saturday may linger till 8am, but afterwards dry conditions are expected. A few more clouds on Saturday are expected than on Friday. The next rain system will begin to approach the area on Sunday leading to cloud cover, but dry conditions are expected throughout the day. Overnight into Monday rain will arrive. Monday through Wednesday rain showers will be common with a few millimeters of rain each day. Temperatures will steadily warm throughout the weekend reaching near 70 F on (21 C) on Sunday. Winds will remain light throughout the weekend less than 15 mph (24 km/hr) with a primarily westerly direction Saturday and variable Sunday. Winds remain light outside of any steady rain next week.

Forecast prepared by DTN Meteorologist Connor Bruce and John Hutchinson
