

### THURSDAY, MARCH 5, 2026 – 6 AM WEATHER FORECAST

Wind speeds are the greatest concern of today, with a steady flow from 10 to 15 mph expected to develop later this morning and into the afternoon hours. Peak wind gusts will approach the 25 mph mark by the late afternoon. The slight (1 in 5) chance of a raindrop still exists today, but the forecast is betting on this missing us altogether, yielding the first day of three beautiful days on Hainan Island. Friday and Saturday will feature extremely similar conditions in a stable weather pattern. Enjoy the benign weather pattern!
