Today – A wave of rain and embedded thunderstorms is currently pushing inland across southwestern Florida. Anticipate rain will be scattered from mid-morning through midday with thunderstorms remaining an isolated potential. Another wave of moderate to heavy rain and embedded thunderstorms is expected to arrive in the early afternoon. Scattered showers and isolated thunderstorms are then anticipated from the late afternoon to early evening hours prior to activity diminishing tonight. Light southwesterly winds this morning will increase into the 7-15 mph range this afternoon.
