Aon Insight

With the Par-5 12th, the Aon Insight highlights a clear year-over-year shift in strategy: with the go-for-green rate decreasing, and the strokes gained advantage over laying up shrinking in 2025. With players accounting for variations in setup and strengths, these strategic adjustments produced better outcomes as the birdie-or-better rate increased to 43% while bogey or worse scoring fell by almost half to just 5% as the field [significantly] mitigated risk. In 2025, Miranda Wang demonstrated the value of this mixed approach, going for the green twice and laying up twice, to play the twelfth two-under for the week on the way to her breakthrough maiden victory.

What is the Aon Risk Reward Challenge?

The Aon Risk Reward Challenge is a season-long competition on the LPGA Tour testing the abilities of the world's best players to make thoughtful, strategic decisions on the most challenging holes ("Aon Risk Reward Challenge holes") throughout the year.

At the end of the regular season, the most consistent player on Tour, with the lowest average score under par, on the Aon Risk Reward Challenge holes captures the \$1 million prize and the Aon trophy.

Aon's Risk Reward Challenge Scoring

One hole is selected at each tournament as the designated Aon Risk Reward Challenge hole for the week (hole is strategically challenging in nature).

For every participating event, a player's best two scores on the designated hole counts towards the season-long leaderboard.

The player with lowest average score under par across the regular season wins the Aon Risk Reward Challenge and will be awarded at the CME Group Tour Championship.

Aon and the PGA TOUR

The 2026 season will showcase the continuation of Aon's partnership with the PGA TOUR, which will integrate the use of real-time analytics and capitalize on changes to the TOUR's reimagined 2026 schedule.

Aon will headline the Aon Next 10 and the Aon Swing 5, which recognize better decision-making and the elite performance required to break into Signature Events. **Key elements of the Aon Risk Reward Challenge program have evolved to "Better Decision Breakdown" segments that use emerging technology to provide real-time analysis of player decisions.
