Tournament Course Setup Notes and Daily Yardages

Grass Types and Cutting Heights

Tees, Fairways and Approaches

Tees, fairways and approaches are Bermudagrass & Poa Annua. Tees and fairways are cut at .325" and approaches are cut at .270". The intermediate rough is cut daily at 1 inch.

Greens

Greens are Bentgrass & Poa Annua. Greens are single cut at .120" and single rolled. The mowing and rolling schedule will be adjusted as needed to maintain an average of 11.5-12.0 on the stimpmeter.

Rough

The Rough is Fescue/Ryegrass and is was cut to 3 inches during Advance Week.

Golf Course and Site Information

In 1910, the current property was surveyed by architect Tom Bendelow. Nine years later, Donald Ross was hired by Maketewah Country Club to design and construct the first true professional golf course on the property.
