Extended forecast – Continued chances of scattered rain showers will remain into mid-week with slight chances of an isolated storm on occasion within this activity. By the end of the week, a drier pattern is likely to return with only a slight chance of an isolated shower at times. Southeasterly flow will persist through much of the week before trending out of the northeast by the late weekend. Daily high temperatures are forecast in the upper 80s with overnight lows to settle in the low to mid 70s.
