Winds (mph)	SSE 5-11 G16	SSE 6-12 G23	SSE 7-13 G24	SE 6-12 G23	SSE 5-12 G18	SSE 5-10 G16

Today – Partly cloudy skies and breezy southeasterly winds will persist for much of today. By the afternoon hours, temperatures will warm to the low 90s with feels-like temperatures to trend slightly warmer today – closer to 100F. In addition, a slight chance for an isolated shower or storm cannot be ruled out in the area. After sunset, temperatures and winds will begin to taper with drier conditions likely to remain in place.

Sunrise: 6:16am / Sunset: 7:12pm | Rainfall: Trace – 1.2 mm (Trace – 0.05 in), if any.

Winds (mph)	S 4-8	SSE 5-10	SSE 5-10	SSE 5-11 G15	SE 5-11 G15	SSE 4-8

Tomorrow – As a frontal boundary continues to gradually progress east to southeast through the Gulf, slightly increased moisture may filter into the region. This will influence some chances for a pop-up shower or storm in the area, especially during the afternoon hours. Temperatures are forecasted to peak in the upper 80s with feels-like temperatures to once again trend in the upper 90s. Southeasterly flow may slightly ease across the region with winds at 5-11 mph and the occasional wind gust approaching 15 mph. Drier conditions will briefly return later Sunday evening with temperatures and winds to taper across the area.

Sunrise: 6:16am / Sunset: 7:12pm | Rainfall: Trace – 3.0 mm (Trace – 0.10 in).
